ACTIVITY REPORT

Title of Activity: Seminar on "Clinical Research Industry "

1. **Day/Date, Venue & time:** Thursday-15/02/2023 "Jayawant sabhagrah" Seminar hall, 02.00 pm onwards
2. **Objective of activity:** To help students explore recent trends in clinical research and pharmacovigilance as career options with emphasis on methodologies for learning the product-specific regulatory actions in terms of public health outcomes, as well as to explore the actual pharmacovigilance processes.
3. **Outcome of activity:** Greater insight into the ever-expanding field of clinical research and pharmacovigilance industry and addressing of queries by the expert professional.
4. **Description of activity:** The Training and Placement Cell and Internal Quality Assurance Cell of the college organized a one day seminar on "Clinical research Industry" in association with Dysmech Clinical Services Pvt. Ltd. The Guest speaker **Anuprita Gandhi**, explained Pharmacovigilance systems which have been established to monitor the safety of medicinal products and to detect and manage any change to their risk-benefit balance. The seminar also underlined several pharmacovigilance processes and their contribution to public health protection, e.g. regulatory and operational challenges of survey studies measuring the effectiveness of product-specific risk minimisation and feasibility of postauthorisation safety studies. She gave encouraging examples in the form of games and puzzles and explained the students' actual pharmacovigilance practices in easy way. She discussed the whole process of clinical research.
5. **Activity Experience:** It was very interactive session wherein the students got introduced to a few promising opportunities and challenges in clinical research and PV.
6. **Feedback:** Formal feedback is obtained
 1. **Number of participants:** 105 .
